## **Superintendent's Consulting Activities**

The Board expects the superintendent to devote full attention and energy to the concerns of the district. The superintendent may not be engaged in any other employment nor in long-term paid consulting assignments without the express permission of the Board. The Board, however, recognizes the superintendent's obligation to contribute to the profession of school administration and to the field of public education in general. This policy, therefore, does not prohibit the superintendent from undertaking occasional consulting work that does not conflict with obligations to the district. Any such task that requires the superintendent's absence for two or more consecutive days must involve prior notice to the Board chair.

END OF POLICY
