

## Instructional Goals and Climate

The purpose of the district is to provide a safe environment where students learn effectively.

In order to create a climate where students learn effectively, we believe:

1. That all students can learn given sufficient time and support;
2. That student rates of learning may vary from task to task and student to student, thus we are committed to supporting learning through open opportunities as well as keeping support available for all students;
3. That school can be invitational by influencing the variables within the school setting which determine success for students;
4. That emphasizing a positive attitude towards learning and building self confidence by providing experiences for individual success will have a direct influence on student success;
5. That skills in our CORE curriculum are the essential tools for workplace success;
6. That we should identify and nurture our students' skills and talents;
7. That students should be taught in ways appropriate to their learning style as well as their developmental level;
8. That the role of the teacher is to facilitate learning, positive relationships between student and staff need to be encouraged;
9. That students will learn more when the experience provided within our programs have meaning for our students;
10. That learning happens best in an open system where what is learned, how it is learned, and how it will be assessed is clear and open at all times.

END OF POLICY
