

Pediculosis (Head Lice)

The district, in compliance with the Yamhill County Health Department, maintains a lice free policy in regard to Head Lice protocols.

All live lice will be removed following the application of a lice-killing product.

All students infested with live lice shall be excluded from school until the measures above have been completed.

The parent shall accompany the student to school where the student will be screened for lice. If live lice are still present, the student will return home with the parent.

It is the parent's responsibility to ensure an approved treatment has been initiated and the appropriate environment cleaning is being conducted in the home.

The district will provide a community education to insure that parents understand their responsibilities under this policy.

END OF POLICY
