**Exemption from State Requirements**

The district may excuse students from a state-required program or learning activity, where necessary, to accommodate students' disabilities or religious beliefs. Exemption shall be considered in response to a written request for exemption from the student and his or her parent or guardian.

The district may approve and grant credit to a student for an alternative to a state-required program or learning activity. Approval of the alternative shall be based upon and shall include:

1. A written statement from the student and student's parent or guardian of the anticipated educational advantages which will result from the alternative;
2. An evaluation of the request by appropriate district personnel (the alternative should be consistent with the student's educational progress and career goals as described in OARs 581-022-1670 and 581-022-1510, including progress toward meeting the state and district requirements for graduation); and
3. Other information as requested by the superintendent.

Following approval by the superintendent, and upon successful completion of the alternative course work, credit shall be granted to the student.
