

Yoncalla School District 32

Code: **AD**
Adopted: 8/23/00
Readopted: 6/11/12
Orig. Code(s): AD

Educational Philosophy

The Board believes education should be shaped by purposes rather than by forces.

The districts' education system, while maintaining flexibility in adapting to an ever-changing society, is dedicated to the personal development of each student to his/her abilities and interests in a sequentially coordinated curriculum which allows for individual differences, becoming proficient in the knowledge and skills of the student's current grade level and opportunity to succeed.

To this end, staff members will strive to aid each student's intellectual, physical, character, emotional and social growth so that he/she may become a responsible member of home, community and society while leading a personally rewarding life.

As each student develops his/her abilities, they are expected to acquire proficiency in the use of skill subjects, attain efficient and satisfying work habits, grow strong physically, acquire wholesome interests, learn to give responsible direction to his/her life, develop desirable social attitudes, assume citizenship responsibilities, cultivate intellectual interests and learn to appreciate the world of beauty.

The district supports academic growth beyond proficiency in established the knowledge and skills of the student's current grade level and encourages students to attain aspirational goals that are individually challenging.
