Use of Private Vehicles for District Business

The Board discourages the use of private vehicles for district business, including the transportation of students. Staff will use district-owned vehicles whenever possible and should schedule activities and transportation far enough in advance to avoid any nonemergency use of private vehicles.

The superintendent will develop regulations for staff use of private vehicles which will safeguard the district, its employees and students in matters of safety, insurance and liability. The Board will review such regulations at least annually.

No staff member will use a private vehicle for school business, including the transportation of students, without administrative approval. Authorization to use a private vehicle must be obtained before actual use of the vehicle except in an emergency. Staff members who are authorized to use a private vehicle on district business will be reimbursed in an amount established by the Board.

No student will be allowed to perform school business with his or her own vehicle, a staff member's vehicle or a district-owned vehicle.
