## **Child Nutrition - Collection Procedures and Accountability System**

In collecting payments for meals or milk and in utilizing the roster/check-off system, school officials must ensure that there is no overt identification of recipients of free or reduced-price meals. Care must be taken to prevent such identification at the time the student roster is checked and confirmed as well as in the serving line.

All collection systems must have a built-in accounting system to record numbers of full price, reduced-price or free meals of the quantities of full price served daily. Keeping these counts is a requirement. Count records and reports will be submitted to the superintendent and Oregon Department of Education.

The district uses the following system:

Meal payments are collected in the district office and the elementary school office. Payments can be made by students or parents on a daily, weekly or monthly basis. The secretary records the payments and knows which students qualify for free or reduced-price meals.

### **Coding Method**

The following coding methods are used:

1. The district will provide the appropriate personnel:
  - a. A copy of policy and written detailed procedures on annual workshops or training sessions;
  - b. An annual workshop or training session:
    - (1) The names of trainers and trainees and topics covered shall be documented.
  - c. Technical assistance as needed during the actual operation of the meal service;
  - d. Orientation when new or substituting.

2. The district will:
  - a. Review all information for accuracy at least annually;
  - b. Review the meal count system for compliance with the approved policies;
