## Student Vehicle Use

Student use of vehicles shall be regarded as a privilege that can be extended or denied to any student, individually, or to all students, collectively. Due to the lack of parking space and hazardous traffic patterns on and around the school premises, regulations are necessary to protect students and property.

The district may require all students parking vehicles on district property on a regular basis to show evidence:

1. That the student driving the vehicle holds a valid driver's license;
2. That the vehicle is currently registered;
3. That the student driving is insured under a motor vehicle liability insurance policy or other satisfactory proof of compliance with the financial responsibility requirements of the state.

No student driver vehicle may be moved during the hours a student is at school without the specific permission of the principal/designee.

Students driving to school must park in designated areas. The front row of parking is reserved for the staff. Students are prohibited from parking in the front row.

No student will be allowed to drive their vehicle during school hours unless they are enrolled in an off campus school, a work experience program or an emergency occurs and then only with the specific permission of the principal/designee.

Any student parking in other than school designated areas or who fails to abide by the rules and regulations governing vehicle use will face discipline that may include loss of parking privileges.
